

Thank you for your interest in ESCI's assistance with your SAFER Grant Staffing Needs Assessment application. We have developed the scope of work for use in your grant application. Although we are not able to write your grant application, we are able to provide the scope of work and pricing that you need to include. In addition to a .pdf file, the scope of work is provided for download separately as a Word document, so that you can copy/paste the content into your grant application. **However, the scope is proprietary information and may not be modified in any manner without ESCI's permission.**

Also provided for your reference is the SAFER Notice of Funding Opportunity (NOFO). On page 42 you will find the reference to the staffing needs assessment under the header of "Recruitment and Retention of Volunteer Firefighters Activity – Eligible High Priority Costs." Please note that this opportunity is available only to volunteer and combination staffed fire departments.

In regard to pricing, we have developed the following pricing schedule based on the number of stations in your fire department:

Number of Stations	Pricing
One to four	\$20,956
Five to eight	\$21,956
Eight or above	Contact ESCI to discuss pricing

You will note that we have only identified pricing for agencies with a maximum of eight stations. If you have more than eight stations, please contact ESCI and we will discuss pricing options.

We look forward assisting you in this important undertaking.
